WASHINGTON:

MONDAY AFTERNOON, DECEMBER 1. Ar Hour of Publication:-- Four, p. m. 70

For the List of Arrivals, see third page. Congress. SENATE. - After an appropriate prayer by Dr.

Butler, the credentials of the Hon. Hamilton Fish, of New York; Benjamin Wade, of Ohio; Robert F. Stockton, of New Jersey; Charles J. James, of Rhode Island; Henry S. Geyer, of Missouri; and Charles Sumner, of Massachusetts, Senators elect-for six years from the 4th of March last, were severally presented, and Messrs. Fish, Wade, James, Geyer, and Sumner were sworn in.

Mr. Morton presented the certificate of the Governor of Florida of the election of the Hon. S. R. Mallory; also a copy of the Journal of the Legislature, containing the proceedings of the election, which record, it was maintained by Mr. Yulee, entitled him to a seat. After a long debate, in which Messrs. Clay, Foote, and Hale maintained that Mr. Mallory, having the Governor's certificate, should be sworn, and Messrs. Seward, Berrien and Mason the contrary, the Hon. Stephen R. Mallory was sworn in; and the contesting papers were referred to a select committee of five Senators.

Mr. Gwin gave notice of a number of bills relating to California.

Mr. Foors gave notice of a joint resolution providing for the reception and entertainment of Louis Kossuth, governor of Hungary. After adopting the usual orders, the Senate adjourned.

House of Representatives .- The roll was called, and 213 members answered to their names

Mr. Jones, of Tennessee, moved to procee to the election of a Speaker viva voce, and nominated Linn Boyd, remarking that he would vote for him because he was a true and tried Democrat and a trué Compromise man.

Mr. CARTTER would vote for him because h was the candidate of the Democratic caucus. Mr. CAMPBELL, of Ohio, nominated Thaddeus Stevens, and said he was as pure a friend to the Union as any man.

Mr. Brooks spoke of the Whigs having agreed this morning to a Compromise resolution, which the Democratic caucus had refused to do; whereupon a spirited debate arose, involving the course of the Whig and Democratic parties on the subject of the Compromise mea-

Mr. GIDDINGS, in conclusion, said that in less than sixty days every gentleman would have an opportunity to give his views, and urged an organization forthwith.

The House then proceeded to an election, and LINN BOYD received 118 votes out of 212. Eighteen or nineteen other persons were voted The Speaker was then conducted to the chair

and made a short and appropriate speech.

At 2 o'clock the members are being sworn in Later .- Colonel Forney is elected Clerk of the House, having received 129 votes; and the following officers are elected by resolution, viz: Mr. McKnew, Doorkeeper; Mr. Glossbrenner, Sergeant-at-arms; and Mr. Johnston, Postmaster. No Chaplain has been elected.

A joint committee was appointed to wait on the President of the United States, and the Message will beyond a doubt be delivered at

The House adjourned at a quarter before 4 o'clock.

We refer to our first page for remarks con-

cerning the Democratic caucus. The Whigs-only thirty in number, as we

are informed, met at 9% o'clock this morning, and adopted the Compromise PLATFORM, We know not how unanimously.

SOUTH CAROLINA LEGISLATION .- A telegraphic despatch from Charleston, S. C., dated the 28th ultimo, states that a bill was before the Legislature of that State proposing to prevent the citizens of the various States in which the action of the Fugitive Slave Law has been obstructed, from using the courts of South Carolina to collect debts. We feel assured that of many States, equally as desirous as South Carolina to witness the enforcement of the Fugitive Law, and all others required by the constitution, none will be found to approve of so absurd a prohibition as that proposed. We do not imagine, however, that South Carolina herself can ever be induced to adopt it.

EDITORIAL BANQUET TO KOSSUTH.-The preparations for this affair, by the press of New York, are being duly made. The Mirror understands it to be the intention to make the banquet "a perfectly unique affair, by confining it ' to the profession. The President and his Cab-'inet will be invited, also the Governor of the · State, General Scott, Captain Long, of the 'Mississippi, and the Mayor of the city. These, with Kossuth and three or four in his suite, will cover the invitations. There is already a strong pressure for tickets from the outside, as high as \$100 having been offered for s single ticket. But the members of the press ' must be served first."

"The world is governed too much." The aphorism is true, and we should study it well. Our republic is very large, and has interests as diversified as it has apparent differences in climate, soil, agricultural productions, and peculiarities in the condition of its society. In the attempt to govern too much lies the greatest danger before us. The tenure of our Union and its harmony are to be determined by the degree of consideration this saying receives. We may exist and prosper by leaving undisturbed those things upon which general agreement is impracticable; but once declare m to be essentials, and dangers arise.

A SMASH .- Mr. J. B. Wilson's horse ran off this afternoon, with his dray, on the Avenue, and came afoul of Mr. Dant's back, No. 40, from which it tore the hind wheels, and which was otherwise considerably damaged. Nobody

The reprint of the Edinburgh Review for October is before us; also, the International for December. These are books full of interest, of Illinois, and Hunter, of Virginia, at the head of sterling merit, and published at low rates. We its columns, as the Democratic candidates for heartily commend them to public favor. Taylor President and Vice-President in 1852-recom-& Maury have them for sale.

MISSISSIPPI-THE UNION .- The State conention of Mississippi, which recently assem bled at Jackson, passed resolutions declaring that the people of Mississippi abide by the se-ries of measures sanctioned by Congress in 1850, and usually known as the Compromise; they also declare the opinion of the convention that the people of Mississippi will abide by the Union as it is, and by the constitution of the United States without amendment. A declaration equally strong is put upon record against the pretended right of secession on the part of a State—affirming that such a principle is subversive of the Union, and involving in its effects a civil war.

"Thus it is," the Baltimore American truth fully remarks, "that the integrity of the Union, wheresoever the question is brought to issue, rises paramount above all other considerations; and the American people in every quarter, wherever the occasion is offered, pronounce their judgment against the political suicide which Disunien or Secession would imply. Let us make up our minds, once for all, that we are to live together as one people; and that when the time comes (which we trust never will come) that we cannot so live, it will matter but little to the world whether we ex-

THE NATIONAL INTELLIGENCER.—This vener able journal appears before us this morning with its armor newly burnished for the opening Congressional campaign.

We quote from its columns :

"If, at the opening of each session of Congress, and especially of each new Congress, we have regarded with complacency the continued triumph of representative government, we may honestly exult in the now recurring evidence of the strength of this Union, when it is accompanied with such proofs as we have lately had of its still firm hold in the heart of the people. All that the friends of the Constitution have now to ask of the Senators and Representatives in Congress is, that, adhering to the established institutions and policy of this Government, they shall faithfully reflect the sentiments and the affections of their constituents."

We unite heartily in this demand upon the statesmen and patriots now assembled at the capitol; and we rejoice that the experienced, ble, wise and benevolent conductors of the Intelligencer are still among us to aid by their counsels the important legislation of our coun-

try. Many years and many changes have passed over this nation since they entered upon their present field of honorable toil, and many trials and temptations have surrounded them; yet has their good name never been successfully impeached, nor their dignity, magnanimity, truth and justice obscured, even amid the se verest conflicts in which they have been forced to engage. Their present influence, and the bright future that we hope is still before them, and their own glorious record of the past, are regarded with pride and admiration by their countrymen, and with pleasure that knows no alloy, save the unwelcome reflection that, in the usual course of nature, ere many more years shall pass away they may cease to adorn their exalted position. The star that enlivens the evening of their days, however, is not less beautiful than was the splendor of their noonday sun; and, in its final descent, the halo that shall encircle it will linger long in a nation's memory, and perpetuate forever the well-merited respect and affection of a grateful people. Monuments may be erected to our warriors and statesmen, and poets may adorn their graves with fancy-wove garlands; but the pen that has for long, long years enlightened and guided the mind of a people has erected its own monument, and one that will exist in beauty when every column of granite or marble shall have crumbled and perished away.

## Criminal Court.

The Criminal Court for the District of Colum- | yield of gold during the present year is \$75,-There are many cases on the docket, including the United States vs. John Day, for the shooting of his wife, and the United States vs. Wells, the marine, who killed the son of Sergeant Joseph Mundell. Also several important libel suits, &c.

The list of grand jurors for this term is a

In the case of the United States vs. Margaret Johnson, Mr. Fendall entered a nolle prosequi. The case of the United States vs. Hugh Dow-ling, indicted for an assault on Thos. Hunter, is now under trial; Ratcliff for defence.

CONFECTIONERY .- Read the advertisement of Eckardt & Brother. From an ice cream to a 500-lbs. cake, they are perfect. Look in upon

A corporation banquet to Captain Sands and the officers of the frigate St. Lawrence was given at the Astor House, New York, on Saturday evening. The dinner was recherche. Young America was present, and the speeches were excellent. Thus saith the Herald.

In the Fourth Presbyterian Church, 9th street, (Rev. J. C. Smith's,) on Thanksgiving Day, sixty-seven dollars and a half were collected for the Orphan Asylum.

ANOTHER PRESIDENTIAL TICKET.—The Louis ville Democrat places the names of Douglas, of mending them in a leading editorial.

The steamship Alabama arrived at New Or eans on Friday morning last, in nine days from San Juau de Nicaragua, with 240 passengers, and news from San Francisco to November 1two weeks later than previous advices. It was prought down by the steamer Pacific, from San

The most startling intelligence by this arrival (if true) is the murder of eleven of the passengers and crew of the New York clipper ship Challenge, by the captain and mates of the vessel. This deed, it is said, had excited a thrill of horror, and had caused the most intense excitement throughout San Francisco. The mates had been arrested by the authorities, but the captain had succeeded in making his escape. vigilant efforts had been made to secure his ar-

It is stated that ten of the crew of the Challenge had died on the passage, and six more were taken to the hospital in a dreadful condi-tion, in consequence of the treatment received

from Captain Waterman on board the ship. Passengers by the Alabama report that the hipments of gold by the steamers of the 1st

ward by the Oregon.

The steamers Cherokee and Prometheus had

arrived at San Juan de Nicaragus.

The steamer Pacific arrived at San Juan de Sud on the 15th, with 490 passengers, many of whom came by the Alabama, the entire time of travel between San Francisco and New Orleans being 27½ days.

Col. J. W. Barbour, U. S. Indian Commis-

sioner, arrived in the Pacific, having succeeded in making treaties with forty tribes of Indians, who have hitherto been at open war with the whites. The disturbances and outrages in the Indian country have ceased.

The accounts from the mines say that the

rield of the precious metals shows no abatemen out rather an increase.

The rainy season had begun to make its ap-

Pearance.

In the markets, during the past fortnight, a fair amount of business has been transacted, and the tone of trade generally is good.

Real estate continues in demand at advance rates. State stocks are firmer, with an active demand. Gold dust commands \$17 per ounce for clean parcels.

Another Arrival.

NEW YORK, Nov. 30 .- The steamer Cherokee, with full California advices, (but to the same date, the 1st of November, as by the Alabama, at New Orleans,) arrived here at a late hour last night. She brings three hundred passengers, and upwards of \$2,500,000 in gold.

The convention for the division of California into two States met at Santa Barbara on the 30th ultimo. Only four counties were repre-sented, and but thirty-one delegates were present. The convention adopted a resolution proposing the line of division, which would in-clude in the southern section the counties of San Diego, Los Angelos, San Luis Obispo, Santa Monterey, and about half of Mariposa, which is two-fifths of the entire area of State. A committee was appointed to preare an address on the subject to be presented

o the legislature.

A convention was also in session in San Franisco for a division of the State. Nearly all the southern counties were represented, and reso-lutions were passed in favor of division, after a considerable opposition as to the manner in which it should be effected. The terrible tragedy on board the ship Chal-

lenge, resulting in the murder of ten of the crew, is still enveloped in mystery. The ex-citement at the wharf, when the vessel arrived at San Francisco, was very great, and an at-tempt was made to lynch the captain and mate, both of whom, however, escaped. A reward of \$500 was offered for their arrest. It was rumored, when the steamer sailed, that the cap-tain had surrendered himself.

California was generally tranquil, and the Vigilance Committees were becoming extinct.

The Indians on the borders were quiet, but it was rumored that hostilities had broken out among three tribes on the Lower Colorado. Great discoveries of gold had been made on Queen Charlotte's Island, off the coast of Bri-

tish Oregon.

Trade with Oregon and the Sandwich Islands

The accounts from the mines were of the most brilliant character. Quartz mining at-00.000. The health of the miners was The ship Dodalus, sent by the British Gov-ernment in search of Sir John Franklin, had arrived at San Francisco without discovering my traces of his expedition.

The storeship Southampton arrived at San Francisco on the 18th of October. FROM OREGON .- Accounts from Oregon state

that the immigrants, with the exception of about fifty wagons, were all in. They were unusually healthy, and in excellent spirits.

The miners were reaping a fair reward.
Flouring mills are in process of erection at

ortland and Milwankie Business generally was active.

FROM THE ISTHMUS .- The dates from Panami are to November 18. The rainy season was nearly over.

The railroad had been completed from Navy

bay to a point three miles this side of Gature and the cars are now running daily.

DIFFICULTIES AT SAN JUAN .- Accounts from San Juan del Sud represent everything as in a state of anarchy and confusion. Gen. Munoz has collected a large force, with a supply of arms and ammunition, and had determined to prevent the landing of passengers by Vanderbilt's line. About 100 Americans had joined

Much sickness prevailed at San Juan. Prosions were scarce and high, and business dull.

THE TREASON CASE .- The district court at Philadelphia appears to be progressing well with the case of Hanaway. Five witnesses were examined on Saturday morning, among whom were Dickenson Gorsuch, the son of the gentleman who was killed, and who was badly wounded himself; Joshua Gorsuch, cousin of the deceased; Dr. Pierce and Mr. Hutchinson-all of whom accompanied Mr. Gorsuch to Lancaster county, in pursuit of the fugitives. Their tesimony establishes the fact that the prisoner Hanaway was early on the ground, after the sounding of the horn, and was immediately followed by a band of negroes; that he refused to assist in the arrest of the slaves, and that his presence gave encouragement to them, as shown by the fact that the firing commenced from the house of Parker, as soon as those within saw him in the lane.

TURNER, THE VOCALIST .- This gentleman, who is to appear to-night before our friends of Georgetown, will to-morrow night appear at Carusi's, and sing a number of his favorite ballads. He will doubtless be honored by the presence of a full and fashionable audience. Mr. Turner is a most exquisite singer, and has every where had great success.

Magruder & Calvert advertize a splendid assortment of Dry Goods.

Col. Sloan .- We are gratified to learn that this gentleman, who so suddenly fell on the Avenue on Safurday last, and who has since been suffering much from the concussion, is now better, and his medical attendants, Drs. Dumall

and A. Lindsley, pronounce him convalescent. Kossuth Reception in New York .- Preparations are making to give Kossuth a grand serenade by torchlight, on the night of his arrival in New York. The United German Singing Academies, composed of eight different classes, comprising about three hundred persons, will perform some German and American national hymns. There will be three grand bands, and the musicians will be escorted by the Turner Association, numbering four hundred members. This will be one of the most enthusiastic musical demonstrations that has ever taken place in this country.

Great Medical Discovery!

DR. J.S. ROSE'S NERVOUS CORDIAL,

FOR ALL NERVOUS CONDITIONS OF THE SYSTEM.—I first discovered this preparation in 1840, since which time I have found but little difficulty in curing most NERVOUS DISEASES, but very recently I have added an ingredient which acts like magic in rendering my NERVOUS CORDIAL far more certain in curing Nervous Tremor of the Muscles, Shaking of the Head, Palpitation, Flatulence, Heart-burn, Tic Dolor, or Pain in the Face, with Twitchings of the Muscles or Flesh, Wakefulness, Heart Diseases, Neuralgia, and for the mind or body, affected by care, labor or study. This truly wonderful Medicine, from its peculiar happy effect in aliaying the most violent Nervous affections, and completely eradicating them from the system, may justly be termed the grandest discovery in the science of Medicine. It subdues and averts all those NERVOUS DISEASES, over which the most profound medical skill has hitherto had no control. It is a grand restorer in building up a weak constitution, already worn down by disease and debilisted by other Medicine; its invigorating properties act like a charm, and its beneficial effects are almost miraculous. The weak, the nervous, and those suffering with constant pains and uneasiness, are frequently cured by using a single bottle.

CIRCULAR.

WASHINGTON, August 1, 1851.

CIR: After consulting many persons interested in the principal Railroads in the United States, the undersigned propose to establish agencies in this city and in New York, for the purpose of collecting full and authentic Railroad statistics and such other information as will enable them to serve persons desiring to invest in Railroad securities, or to precure information of any matters connected with the construction and administration of Railroads. They also propose, especially, to urge upon Congress a modification of the laws relating, to contracts for carrying the mail, so as to authorize the Post Office Department to contract for the perpetual use of Railroads, and, instead of paying, as now, quarterly on contracts for four years, to advance in five per cent. bonds of the United States, chargeable upon the revenues of the Post Office Department, an amount, the interest upon which at 6 per cent. would equal the payments now made.

The Government now pays \$300 per mile for carrying the mail on first-class Railroads. This is 6 per cent. on \$5,000. The undersigned would urge that, instead of paying \$300 a mile, per annum, the Department should deliver, on a contract in perpetuity, five \$1,000 bonds, bearing an interest of five per centum. At this rate the charge upon the Department would be reduced from \$300 \$250 a mile, per annum, and the \$60 a mile saved would create a sinking fund, which will, in a few years, pay off the bonds, and give the use of such roads forever thereafter free of all charge; thereby effecting a vast saving on the present annual expenditures of the Post Office Department, and a consequent reduction of the rates of postage.

The effect will be no less advantageous to Railroad company to complete its road at an early day, and greatly increase its business and profits.

But to meet objections and impress the public mind with a proper sense of the benefits to result from this measure will require concert of action and continued active effort, through th CIRCULAR.
